MUCH ACTIVITY SEEN IN LEDLIE OIL DISTRICT

Sam Carter, well-known Smoky Valley ranchman, was a visitor to Tonopah yesterday for the purpose of hiring a few men to assist in setting up his hay crop. Mr. Carter states that there is considerable activity in an oil well in the Ledlie district, eight miles north of Austin, and that one well has now been sunk for 400 feet. Splendid indications for oil are in evidence, bubbles appearing with frequency. Mr. Carter has just given a lease on the oil and gas rights to 320 acres of land in that locality and the promoters, who are from Wyoming, contemplate installing a Standard rig in the near future.

MEXICO DEPENDS ON U. S. FOR RAW MATERIALS, FOOD

(By Associated Press.) EL PASO, Texas, July 9.—Mexico's rate of consumption is so great that not only are nearly all of the products of that country being consumed there, but a steady demand is being made of the United States for raw materials, foods, grains, machinery and agricultural implements.

This announcement comes from the American consulate at Juarez, Mexico, where Consul Dye has compiled data relative to Mexico's trade relations with the United States.

Exportations from the United States to the southern republic are steadily increasing, customs officials report.

Mexico's fanges, practically depleted of livestock during the revolution, are slowly being restocked.

The United States is practically the only supply for the state of Chihuahua, according to the consular reports. Chihuahua citizens are poor because of the revolution and lack purchasing power, according to the reports, but anticipate large future purchases from the United States.

Included in Mexico's exports to the United States are mineral ores, sugar, vegetables, wooden products and miscellaneous articles.

The southern republic, according to the report, is not as dependent on the United States for shoes and boots as heretofore. There are three shoe factories in Mexico City which are furnishing practically all the footwear for interior Mexico and to a large extent along the border. A new tannery has also been opened there with modern tanning devices which prepare the hides for immediate use in the shoe factories. Another tannery of importance is in full operation at Agua Prieta, Sonora.

An artist in New York received word that one of his paintings won a prize just in time to save himself from eviction for unpaid rent. Nice for things like that to happen when a fellow is flat broke.

Is Volstead's confession that he uses tobacco admission that he does need something to steady his nerves?

AMUSEMENTS

VICLA DANA FEATURE AT THE BUTLER TODAY

The feature picture at the Butler today is Vicla Dana, in her latest Metro special, "Home Stuff," in which Miss Dana has the star role of Madge Joy, leading lady of a cheap road show, which suddenly comes to a standstill in a little town for want of funds. Chance puts in her way both the refuge of a cozy farm, where she comes to live as one of the family, and the love of a young farmer. Then fate enters by bringing into the peaceful household Madge's past in the form of old stage associates, especially Susan Deep, a stage-struck girl who had left the very house Madge was adopted into, and who is now a wealthy woman.

The complications and thrills, which are moulded into the picture would take too long to tell, but it is worth seeing.

HOTEL OWNERS WILL DISCUSS VITAL ISSUES

(By Associated Press.)

CHICAGO, July 9.—The character of the American hotel business may be affected in marked degree by action taken at the annual meeting of the American Hotel association opening here Monday, according to Secretary J. K. Blatchford. He reported these proposals coming up:

Recommendation of the federal board for vocational education that the hotels set aside \$150,000 to establish training schools for employees. Reorganization of the national hotel association to put it on a delegate basis.

Suggestion that a travel bureau be established in the department of the interior to encourage travel in the country.

Endorsement of "right name" legislation making false registration punishable by law.

Secretary Blatchford said that one of the leading universities of the country was considering a course in hotel management.

"Since the passing of the hotel law with prohibition," he added, "the public regards the hotel business in a better light, and fathers and mothers are more inclined to view it as a field for their sons and daughters. The need for the development of hotel executives and employees is urgent. I think if the recommendations of the vocational board are acted upon the hotels will attract some of the best talent to be had."

CREDITORS OF DEFUNCT BANK ARE PROTECTED

(By Associated Press.)

HAVANA, Cuba, July 9.—Creditors of the Banco Nacional de Cuba, which suspended payments April 11, last, are fully protected, according to statistics published by El Mundo and credited to Eduardo Duruthy, secretary of the federal bank liquidation commission, which is reorganizing the bank.

It is claimed that only a deficit of more than \$20,000,000 would bring a loss to depositors, as the bank, when it suspended operations April 11, had assets fixed at \$68,050,000 and liabilities of \$57,840,000.

The secretary stated that the commission had instituted economies which were resulting in a saving of \$70,000 a month. He added that the institution would return to normal just as soon as the nation itself solved its problems and adjusted itself to new conditions.
